DISASTER

**Overtakes Rumanian Inva-
sion of Bulgaria and

HALT DOBRUDJA ADVANCE

**Serbian Are Successful In
Movement Northward To-
ward Monastir—Now Are
Within Less Than Dozen
Miles of Famous Citadel—
British Are Reported Re-
pulsed In Somme District**

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 5.—The bold inva-
sion of Bulgaria by Rumanian troops
which crossed the Danube near
Rahova in the rear of the main bat-
tle line in Dobrudja has ended most
disastrously for the invaders ac-
cording to Sofia, their force being
scattered and virtually wiped out.

To combat the Rumanians, who
apparently were from 12,000 to 16,
000 strong, but declared to be with-
out artillery, the Bulgarians sent
troops from Rustchuk and Turtukal
on either side of the point of cross-
ing. Caught between the two forces,
the Rumanians are said to have
made for the pontoon bridge which
they found destroyed by Austrian
monitors.

Berlin's announcement says that
the invading force broke in disorder
and that yesterday the Bulgarians
were engaged in completing its de-
struction.

Regarding the operations along
the Dobrudja front south of Tchernia
Voda-Constanza railways, the cur-
rent Sofia statement reports the re-
pulse of all Russian and Rumanian
attempts to advance. Bucharest has
claimed substantial progress with
these attacks near the center and to-
ward the Black Sea coast and yester-
day reported the capture of more
than 1,000 prisoners and seven guns
from Field Marshal von Mackensen's
forces.

On the western end of the Mace-
donian front the Serbians are press-
ing northward toward Moastir,
fighting on Serbian soil to the south-
east and close to the border to the
westward. In this later region they
have reached the town of Buf, 12
miles below Monastir, according to
Paris today, while around the bend
of the Cerna they apparently are
still nearer their objective.

The current Bulgarian official
statement deals with the situation
in the Monastir district only in a
general way but declares the Serb-
ians along the line to the east were
foiled in attempts to advance in the
Mogolica valley near Strupino. A
repulse for the British beyond the
Struma on the eastern flank of the
battle front also is reported.

EXPRESS CRUSHES CATTLE TRAIN; TWO MEN ARE KILLED

(ASSOCIATED PRESS TELEGRAM)

Altoona, Pa., Oct. 5.—Two men
were probably killed, an engine man
was seriously scalded and a dozen
mail clerks and passengers were
more or less injured early today
when the Mercantile Express on the
Pennsylvania railroad between Pitts-
burgh and New York crashed into
the rear of a stock train at the West
End of the Lewistown yards. The
tracks were blocked for more than
four hours.

The freight train crumpled and
four cabin cars and three stock cars
were strewn across the tracks com-
pletely blocking traffic. Almost im-
mediately fire broke out in the wreck-
age and while rescuers were taking
the engine man from his crushed
engine where he had been seriously
scalded, others were trying to extin-
guish the flames.

Many of the passengers assisted
in the work when it became known
that Conductor Eitelberger and a
driver were missing and were be-
lieved to be burning up in the wreck,
but their efforts availed little as the
cars burned fiercely. No less than
a dozen of the passengers had been
injured when the trains struck but
none seriously.

One track was finally cleared
shortly before six o'clock and the
fire was finally extinguished but
the bodies of the missing men had
not been recovered an hour after-
wards.

BURGLARS MAKE RICH HAUL FROM HARDWARE STORE

Police today were searching
saloons and pawn shops, in an ef-
fort to apprehend two men, who are
suspected of burglarizing the hard-
ware store of R. W. Thompson, at
Croton, last night.

Mr. Thompson notified Chief of
Police Sheridan this morning, that
his store had been entered some
time last night and 100 pocket
knives, 10 dozen old fashioned raz-
ors, flashlights, safety razors, watch-
es and scissors, stolen.

The two men suspected of the rob-
bery, Mr. Thompson, said, had hung
around his store all afternoon yester-
day. Their description was turned
in to the local authorities and a
search was being made for them to-
day.

Two College Instructors Missing Fol-
lowing Destruction of St.
Louis College

(ASSOCIATED PRESS TELEGRAM)

St. Louis, Oct. 5.—Fire today de-
stroyed the main building of Chris-
tian Brothers' College here. Two
aged members of the college faculty
are missing and are believed to have
perished and an assistant nurse who
jumped from an upper window was
seriously hurt.

The two missing faculty members
are Brother Cormac, 93 years old
and Brother Clement, 72 years old.
Their room was on the fifth floor
of the infirmary which was swept
by the fire. It is believed neither
could have escaped.

The assistant nurse who was in-
jured was Lewis Noleen, who
jumped from a fifth story window in
the infirmary, as firemen were
climbing ladders to rescue him. His
injuries may prove fatal.

The fire was discovered by the
college registrar as he was walking
upstairs to the room where Brothers
Cormac and Clement were being
attended by Noleen. The registrar
saw flames creeping across the fifth
floor. He gave the alarm.

Students gathered on the campus
and saw Noleen climb to the window
sill and leap.

The building destroyed was a six
story structure. Apparently the fire
started on the fourth or fifth floor
near the elevator shaft and spread
quickly.

About noon the fourth floor of the
building collapsed and seven to 20
firemen plunged to the basement.
Three were taken out badly injured.
Others are in the wreckage.

The central section of the main
college building was destroyed. The
loss is estimated at more than
\$300,000.

Later three more injured were
taken from the wreckage, making
six injured. Four others were
missing an hour and a half after the
floor collapsed.

RUDJA PROVINCE.**

Sixteen Battalions Defeated in Bul-
garia With Heavy Losses—Ar-
tillery Action Is Heavy.

(ASSOCIATED PRESS TELEGRAM)

Sofia, Oct. 4.—(Via London.)—
Bulgarian troops from the fortresses
of Rustchuk and Turtukal attacked
and defeated the Rumanian forces of
some 16 battalions which recently
crossed the Danube into Bulgarian
territory near Rahovo the war office
announced today.

On the main battle line in Dob-
rudja attempts by the Russians and
Rumanians to advance have been
frustrated by the artillery and by
successful counter attacks. The
statement follows:

"Rumanian front.—On the Danube
from 15 to 16 Rumanian battalions
without artillery which crossed the
Danube near Rahovo advanced and
occupied the villages of Siwopol,
Kajamble, Borosawo, Maolowra-
nowo, Goleworajowo and Bresch-
lien. In order to repulse them we
sent two columns from Rustchuk
and Turtukal."

"On October 3, the troops from
Rustchuk attacked the enemy and
speedily forced him to seek refuge
in the direction of his pontoon
bridge which was destroyed by Aus-
trian monitors. The battlefield is
covered with enemy dead."

"Toward evening we occupied the
villages of Lishaw and Baboz. The
enemy troops retreated in disorder
eastward, consequently meeting our
troops advancing from Turtukal.
The enemy was dispersed in several
directions. Our troops today are
completing his destruction."

"In Dobrudja there has been
great activity by the enemy artillery
and infantry along the entire front.
All attempts by the enemy infantry
to advance were frustrated by our
fire and by successful counter at-
tacks."

"A Russian war vessel off Black
sea coast shelled the heights near
the village of Tatladchokos.
"Our seaplanes attacked with
great success a Zeppelin shed on

FOOD PRICES GO HIGHER; DINNERS COST 10 CTS. MORE.

(ASSOCIATED PRESS TELEGRAM)

New York, Oct. 5.—The high price
of food continued to show its effect
today in the prices charged by res-
taurants and boarding houses of
nearly every class. Few of the larger
and more expensive eating places
have raised their charges thus far
but several have adopted the Euro-
pean custom of imposing a cover
fee, which means that the prescriptive
dinner pays ten cents or more for the
seat he occupies at a table.

Several of the popular price lunch
rooms have followed the example of
the corporation which operates the
largest chain of dairy restaurants in
the city and added five cents to the
price of most of their regular dishes.
A number of boarding houses which
make a specialty of table board have
increased the price of their regular
dinner from 50 to 60 cents.

Only Fire Engine Goes Into River; Town Is Destroyed

(ASSOCIATED PRESS TELEGRAM)

Mendon, Mich., Oct. 5.—The
village of Mendon was virtually de-
stroyed by fire yesterday. The
blaze, starting in the afternoon
swept 39 business buildings and resi-
dences and burned itself out last
night. The loss was about \$250,
000 partially covered by insurance.
There were no casualties but several
hundred persons were without
homes or extra clothing today. Re-
lief has been sent to Mendon from
adjacent cities and towns.

The fire started in a meat mar-
ket and quickly spread to other
frame buildings. The volunteer fire
department responded but in hur-
rying their steamer to the fire it
broke away from them and rolled
down a bank into the St. Joseph
river. The city was without fire
defense until apparatus arrived from
Kalamazoo and other cities.

Girl operators in the Mendon tele-
phone exchange remained at their
switchboards until they had flashed
the news of the fire to the surround-
ing cities. The telephone building
was blazing fiercely when they com-
pleted their work. Rescuers helped
the young women to safety.

Mendon has a population of about
1,090 and is 21 miles from Kala-
mazoo.

SOMERSET HAS \$40,000 BLAZE; TWO FIRMS LOSE

(Special to the Advocate.)

Somerset, O., Oct. 5.—Fire early
this morning broke out in the build-
ing occupied by the Dunwoody &
Hunt dry goods store, the Clinton
Love hardware store and the Macca-
bee hall, 11 East Main street, re-
sulting in the destruction of the
building and causing a \$40,000 loss.

The blaze was discovered at 3:00
o'clock this morning by Mrs. James
McElroy, wife of Mayor McElroy, re-
siding on a street in the rear of the
building. The origin of the fire is
unknown.

Starting in an outhouse in the rear
of the building the blaze fanned by
a south wind, spread to the building
occupied by the two leading busi-
ness firms in the city. Firemen, as-
sisted by half of the population, bat-
tled with the conflagration until
nearly eight o'clock today before
they checked the fire's progress.

Adjoining the business block is
the independent telephone company's
exchange. While the flames licked
at the telephone building, Miss Flor-
ence Greenwald, night operator, re-
mained at the switchboard, ready to
call assistance from out of town, if
needed.

The building visited by fire is a
two story brick structure. The Dun-
woody & Hunt dry goods store and
the Clinton Love hardware store are
located on the first and the second
floor is occupied by the Macabee
lodge. The blaze was one of the
worst that has visited Somerset in
years and only for the hard fight
waged by firemen and citizens,
would have caused a much greater
loss.

gun firing. Our artillery dispersed
two enemy companies which had
thrown up their fires southeast of
the village of Doideneh at the foot
of the Belasica Planina."

"On the Struma bitter fighting

USE WASTE TAN-BARK IN MAKING ROOFING.

(ASSOCIATED PRESS TELEGRAM)

Washington, Oct. 5.—Waste hem-
lock tan-bark remaining after the
tannin is extracted, is being used by
a number of mills to replace between
20 and 30 per cent of expensive rag
stock ordinarily used in manufac-
ture of felt roofing, by a method de-
veloped in laboratories of the fed-
eral forest service. Heretofore the
waste bark was used only as fuel and
its value was only sixty cents a ton.
The roofing containing tan bark is
said to be as good as that made
only of rags and the forest service
believes it will effect a considerable
saving in cost.

A good quality of wall paper and
wall board also has been developed
from tan bark waste by the forest
products laboratory. According to
the 1909 census more than 688,000
tons of hemlock bark were produced
yearly in the United States.

City's General hospital early today.
Miss Houck was found dead with a

stated that she had been keeping
company with Wetterer for several
months and charged that he had
wronged her.

Helen Houck was the divorced
wife of William Everhardt formerly

nati but now residing in Colorado.

Omaha, Neb., Oct. 5.—President
Wilson came to Omaha today for one
of the busiest days of his career.
Arriving here shortly before noon
after greeting several thousand
people in towns he passed through,
he went immediately to the Commer-

speech since the campaign opened.
Later his program called for two
more speeches and participation in
a parade symbolizing Nebraska's
history.

Nebraska and neighboring states
greeted the President on his arrival
and continued the applause as he
proceeded through the streets in an

Because of the A. K. Sar Ben

and bands of music played almost
constantly. The President immedi-

TREASURER

OF STATE KING'S DAUGHTERS
REPORTS GOOD BALANCE
AT END OF YEAR.

Officers Nominated Tonight and
Voted Upon Later—New Constitu-
tion to Govern Election.

The Second Presbyterian church auditorium was resplendent with festoons of purple and white, and great clusters of flowers and foliage, which the members of the local circles of The King's Daughters had arranged to greet the delegates who have assembled to attend the twenty-third annual convention of the Ohio branch of the International Order of The King's Daughters and Sons.

The first half hour was devoted to the devotional services, which were conducted by Mrs. Sarah Gule, state president, who dwelt at length on the spirit and how the infusion of the spirit sweetened and strengthened the character.

Miss Alice Ashbrook was called to the platform to give the address of welcome to the visitors. Miss Ashbrook greeted the visitors in the name of the four local circles, The Brightening, The Whatsoever, The Sunshine, and The Silent. In picturesque language in which she likened the joy experienced in receiving the visitors to the finding of the first arbutus in the spring. All visitors were urged to make themselves "at home" and ask for anything they desired.

The response was made by Mrs. H. K. Mouser of Marion, in a charmingly direct way. She told the pleasure felt in coming to Newark and the hopes entertained for a bigger and better convention than ever before.

The roll call found one new county, Allen county, representing Lima from that county sending four delegates. The seating of the delegates consumed a great amount of time.

The guest of honor, Mrs. F. J. Mansfield of Burlington, Ia., was introduced to the conference and after

the convention had extended the greeting she told of her pleasure in coming to Ohio and told of her first experience in Bucyrus, O.

Messages from national officers and other state organizations were read by the recording secretary.

The report of the recording secretary, Mrs. George Mandel of Steubenville was given, in which she read minutes of trustees' meeting held on Wednesday.

The following committees were appointed at that meeting:

Credentials—Mrs. W. D. Fulton, Newark; Mrs. William Leech, Steubenville; Mrs. L. M. Williams, Lima. Auditing committee—Mrs. G. T. Ely, Utica; Mrs. Stanley Manning, Cincinnati; Miss Sadie Franks, Fremont.

Resolution committee—Mrs. Ernest Gettman, Bucyrus; Miss Fannie Wolcott, Uhrichsville; Mrs. H. K. Dixon, Martins Ferry.

The treasurer's report was read by Miss Geraldine Hord of Marion and the report showed a net gain in receipts of \$163.19. The total receipts on hand are \$3,227.42. Total disbursements, \$2,777.46. The association has a total of funds on hand of \$449.96.

The assistant state president, Mrs. F. E. Truax of Columbus, gave the annual report showing a clearing up of financial matters, especially those pertaining to literature and badges. A feature of the report was the discount on badges.

The nominating ballot will be made between 6:30 and 7:30 this evening and according to the new constitution all officers are out and every officer is elected every year. The election also includes three trustees, who will be nominated this evening.

The reports from the county presidents were given.

Delegates Reception.
Preceding the formal business session of the state convention of The King's Daughters and Sons an informal reception was held in the parlors of the Second Presbyterian church on Wednesday evening.

Delegates from various parts of the state, began arriving during the early afternoon hours, and the social event of Wednesday evening was enhanced by the attractive gowns of the women, and an opportunity was given to bring the delegates and local members of the various circles

together in the harmony of acquaintance and friendship.

No effort was made at formality and among those who greeted the visitors in the receiving line were Mrs. Sara Gule, state president of the association from Columbus, the honor guest of the convention, Mrs. P. J. Mansfield of Burlington, Ia., Mrs. Jennie Weaver, president of the Licking county association, Mrs. Lulu Scarborough, Miss Alice Ashbrook, and Miss Elizabeth Felix of Newark, and Mrs. George Mandel of Steubenville and Miss Geraldine Hord of Marion.

During the reception hours music was furnished by Miss Ruth Nangle, pianist, Fred Abbott, cornetist and Howard Jackson, violinist. The members of the Brightening Circle served dainty refreshments.

THE ALPHABETICAL DOTS

By CLIFFORD LEON SHERMAN

"Did any Mexicans ever come across the border?" Tommy asked his father one morning.

"They certainly tried to," replied his father. "It was exciting enough to be on the border patrol and suddenly see a Mexican come out of the brush and try to get by. But the outpost would promptly arrest them and search them."

"Did they find any guns on them?" demanded Tommy.

"Once in a while they did," replied his father, "but more often they found a —"

ROBINSON

**CONFIDENT THAT BROOKLYN
WILL MAKE GOOD SHOWING
IN TITLE SERIES.**

Rube Marquard, Slated For Opening
Game, Confident That Boston
Can be Handled Easily.

New York, Oct. 5.—Wilbert Robinson, manager of the Brooklyn National league club will pit his regulars against New York in the game in Brooklyn this afternoon as a final workout for the opening of the World's Series at Boston on Saturday.

"We are going to win and I think we can do it," said Robinson. "Our team has played ball all season and we held the lead almost all the way through, except for a day or two here and there. We measure up to the Red Sox, and with our team playing its best ball right now there is no reason why it can't win. We'll show the fans some real playing. Marquard, Coombs, Cheney, Pfeiffer and Smith will show them some pitching, and we are not worrying."

"Rube" Marquard who is reported to have been selected to pitch the opening game for Brooklyn, said he was in top form now and that Brooklyn is going to win.

"This team has nothing to fear from Boston," he added.

"We measure right up to their standard in every department, and believe me, we are going to trim them. All I hope is that I can pitch the same sort of ball that I have been pitching during the last couple of weeks."

"We will be right at their throats all the time," declared Jack Coombs.

"If anyone believes Boston is going to ride right over us he is reckoning without the stamp of Jack Daubert, Pfeiffer, Marquard and Chief Meyers."

The first big wager here on the world's series was announced today when it was stated that E. E. Smith, the owner of fast horses, had placed \$20,000 to \$14,000 on the Boston Americans to win. A number of smaller wagers at ten to six were reported.

It was announced that the four umpires chosen for the world's series would meet in Boston today to agree upon a uniform interpretation of rules. The "infield fly" is one point upon which an agreement is desired because in the American league a runner must hold his base on such a fly, while in the National he can run at his own risk.

Amusements

Original Cast.
Manager Geo. M. Fenberg of the Auditorium announces that the "Twin Beds" company which is booked for this city Saturday, Oct. 14, is the same one which is now playing at the Grand theater at Cincinnati, and is the original cast direct from New York.

Alhambra.
Harry Lauder would have been in his element had he chanced in the Famous Players studio while the scenes for "The Daughter of MacGregor" were being staged there by Sidney Olcott. Valentine Grant, who is playing the title role in this Paramount production, was surrounded by a lot of real old Scotchmen in the minor roles of the play and when she appeared in her Tam O'Shanter and her plaid regalia the Scotchmen forgot all about the picture and the brogue began to fly thick and fast.

Auditorium.
Friends of both Ernest Wall and wife, will have a chance of greeting them, for they both appear to good advantage with this company. Ivy Scott of the Metropolitan Grand Opera company, New York, will sing the part of Maid Marian; Ralph Brainerd will be heard in the title role. Others in the cast are Cora Tracey, James Stevens, Phil Branson, Sol Solomon and others.

The company carries its own special orchestra which will be augmented by Prof. Donald Kessane's orchestra. Although the seat sale is quite large, there still remains some choice seats. The gallery tonight will also be placed at the disposal of the ladies who wish to go there. Capacity business is sure to rule at the Auditorium tonight for the engagement of "Robin Hood." Mgr. Fenberg has worked up a splendid advertising campaign for this attraction which comes to him with the best of indorsements. The Walker-Stevens Opera company, which will sing this tuneful opera, is the same organization that toured the country last season and made a hit in almost every city visited. Ever since Manager Fenberg has taken hold of the Auditorium he has strived to get the best attractions possible for the show going public of Newark and vicinity and if they will give him ample support, he is sure that he will be able to give the public the same class of shows that visit Columbus and other large cities.

How a girl rises from life in the slums of London to one of the highest places in English society, then falls suddenly when the deception by which she has climbed is disclosed, is told in Theda Bara's new subject for William Fox, "Her Double Life."

Miss Bara takes the part of Mary Deane, the tenement child who makes her home in The Refuge, a parish house at which Elliot Clifford is pastor. When the call comes for war nurses, Mary answers.

At the front she met Lloyd Stanley, a war correspondent, whom she had known in London. She is saved from dishonor at Stanley's hands by the bombardment of the hospital tent.

Theda Bara will be seen in this picture at the Auditorium theatre Friday and Saturday together with Pathe Weekly, full of late news events.

DeWolf Hopper is the Sunday star at the Auditorium in "Casey at the Bat." The baseball scenes of

"Casey at the Bat," the new Triangle De Wolf Hopper, comedy based on the immortal poem, were staged with the assistance of the managers and captains of two semi-professional teams whose players took part in the picture. This together with a two-reel Keystone comedy will make a most enjoyable program.

Herk-Kelly & Damsel's snappy musical extravaganza, "The Cabaret Girls" with an all star cast, and a

brand new production from start to finish, will come to the Auditorium for Monday afternoon and evening. Song hits galore, startling situations and a chorus that is never idle is found in "The Cabaret Girls," and through it all stalk Irving Gear, Joe Rose, Mike J. Kelly, Claude Lightner, Margie Callin, Jessie Stoner, Dot Barnett and many others. Seats go on sale tomorrow at 10 a. m.

The eternal triangle, the man, the wife and the other man, or the wife, the husband and the other woman; this is the basis for all stories and naturally is as old as time. To treat this age old basic principle in a new or clever manner "is a consummation devoutly to be wished" and in "The Other Man's Wife," The Lambert Producing company's play a new treatment of this old theme is to be found. The play is from the pen of Victor E. Lambert, and abounds in a succession of clever situations. The comedy scenes are numerous, and the press has been most flattering in what they have had to say about the play. "The Other Man's Wife" will be seen at the Auditorium next Tuesday, matinee and evening.

CARRIGAN

**EXPECTED TO RECEIVE LEON-
ARD'S PITCHING IN OPENING
GAME IN BOSTON.**

American League Champions Taking
Life Easy While Awaiting At-
tack of Robinson's Forces.

Boston, Oct. 5.—The first game of the world series to be played in this city two days away, virtually every element in the local end of that event was in readiness today.

The world champion Boston Americans, marking time from the end of the season which brought another pennant, to the hour they meet the Brooklyn Nationals on Saturday in defense of greater baseball honors, divided forces. One group headed by Captain Jack Barry went to Worcester to oppose the Philadelphia Americans in a game arranged to assist a memorial fund for the old time umpire, John H. Gaffney. Others of the team went again to Braves field, where the local games will be played for light practice. Manager Carrigan, who was with the latter group said that "the boys are in good shape except for Foster and Barry."

Whether either or both would be able to take an active part in the series was still uncertain, he said.

Close followers of the team, claiming no authority for their statement, predicted today that Carrigan himself would catch the opening game, with Leonard as the pitcher.

Allotment of the 27,000 reserved seat tickets was finished early today with probably more than 1000 applications unanswered.

The available reservations were over-subscribed so greatly that many persons who asked for a modest pair of seats were allowed but one, while others asking six and eight, in some instances obtained only a pair. To receive their tickets, applicants besieged the club box offices today and with the announcement of last night that reservations were not specific, but applied only to the number of seats allowed, with early comers getting preference of location, the grandstand ticket lines resembled a bleacher rush.

This desire to be on the grounds early was reflected today in the arrivals at hotels of hundreds of visitors, some of whom at least had come ahead of time hoping to get the pick of seats. Hotel men reported early indications of a tremendous business, requests for reservations having taxed the capacity in several instances to the point where cots were ordered installed.

The extent of the appeal of the world series as an event as widespread in interest as the name implies, was shown by requests to club and press officials. Many persons had sent inquiries from the battle front in France some weeks ago, from the Canadian northwest by telegraph within the past week and from Mexico.

The committee in charge of press arrangements announced a greater demand for newspaper reservations than ever before and said that applications had come from Canada and Panama.

HUGHES CASH IS

SCARCER IN BETTING.
New York, Oct. 5.—Wall street, whose vision never reaches west of Philadelphia, has at least heard of the political trend in the middle-west, and today reduced the odds of Hughes in the election betting to 9 to 5 and even at this figure there was very little Hughes money in sight. Edward McQuade, a curb broker, placed \$10,000 to \$18,000 on President Wilson and later on offered \$5,000 more but found no taker. L. J. Stokes, another curb broker, had \$6,000 to place on Hughes at 9 to 5. There was much more Wilson money in evidence in the Wall street district yesterday than at any time since the opening of the campaign. Hughes cash was very scarce.

Agriculture.

With the population of the nation increasing at the rate of 2,000,000 annually, the United States will have 150,000,000 people to feed in 1950, according to statistics given out by the College of Agriculture, Ohio State University. This will require an increase in cereal production of nearly 100,000,000 bushels and an unusual increase in livestock production. In 1906, ten years ago, 584,239 beef cattle were exported, but in 1914 only 18,376 cattle were sent out; the pork exportation exceeded 1,500,000,000 pounds in 1906 but now it has dwindled to nearly 900,000,000. Meanwhile South American countries are exporting food products to the United States while prices of all food stuffs are growing higher.

To meet the demand for increased production and more economical agricultural methods, the College of Agriculture at the Ohio State University, Columbus, will open a new course on October 17, in which men and boys with farm experience will be allowed to enter without further entrance requirement; no high school training is required. Five months of practical farm instruction is given in farm crops, soil fertility, dairying, animal husbandry, poultry raising, fruit and vegetable growing and farm management. The complete course will cover three years, the year's instruction closing on March 16, 1917, allowing all the students to return to their farms for the planting and harvesting season.

The Hunting Season.

Hunting is not the easy and accessible thing it used to be. Every year the man with the gun has to go a longer distance from the haunts of men. He finds wild life constantly more depleted.

While wild game is decreasing in quantity, the number of men out for sport increases. States that maintain a system of hunters' licenses report an astonishing number of applications. In some places it seems as if nearly every able-bodied man had registered for these permits. In popular hunting resorts it is getting about as dangerous for the hunters as for their prey.

And the trouble is not merely that there are more hunters for less game. In luxurious cities, there is an unlimited market for birds, venison, and other titbits. This creates a class of market hunters. This includes many irresponsible and semi-vagrants who pay no attention to game laws.

In land near sizable towns the spread of the No Trespass sign has removed much of the joy of the woods. Owners of timber land are getting tired of seeing valuable trees burned up by fires set by careless campers. It is very nice to be

ASTRONOMICAL EVENTS.

"Thoroughness."

One of the favorite words of the older generation used to be "thorough." When the boys failed to tread down the hay properly in the barn loft or left the vegetable garden half weeded, they were told to go back and do it "thoroughly." It was the spirit of the age.

This is the spirit today in the Old World. German manufacturers have won trade by a disposition to perfect every last detail. They gained a strange hold on Europe early in the war by having everything ready to the last button. The allies are finally pushing the Germans back, because they too are showing a masterly perfection of detail.

Are we "thorough" enough here in America to meet European competition after the war is over? A manufacturer was talking about this a few days ago. He told this incident: There is one girl in his shop whose work it is to give a careful inspection to every finished article. She had got in the habit of passing the product along with but the most rapid glance. The foreman remonstrated. The girl knowing that help is very scarce, told him perily that if he did not like her work he could get some one else. There is no future success in store for anyone who takes that point of view.

The workpeople are not the only ones who lack the spirit of thorough work. The complaint of failure of American shells to explode, of American shoes made with paper soles, looks in the same direction.

There is needed in our country a revival of the old thorough spirit. The mechanic should be ashamed to pass on his work until every detail is perfected. The manufacturer should be unwilling to distribute anything less than the best. Better turn out a smaller product if it is faithfully made in every respect.

The American Bankers Association deplore the shortage of cattle, but do not suggest any plan to stop the tendency to turn the cattle barn into a garage.

An exchange announces that a musician will play The Stars and Stripes Forever. She wouldn't play it forever in our hearing if we could still run.

It is not yet decided whether the prize for the most useless thing on earth shall be given to a European king or a Mexican general.

If you want to hold on to your real estate don't advertise it in the newspapers. It would bring too many attractive offers.

Great Riches.

(Ohio State Journal.)
Rockefeller is the richest man in the world. His wealth amounts to \$2,027,516,000. It is nice to be so famous. But what does it amount to? We know a man in this town who hasn't a cent except his \$1,200 a year salary; has a wife and a "little baby" and little home that he rents, and we will bet he is twice as happy as Rockefeller. That man's happiness is not based upon money or material wealth, but upon the riches of the human heart, which material possessions often chill. Suppose, some day, Rockefeller should say: "This is too much money for one man. I will give it away to 100,000 people. That will be \$2,000 apiece." Please don't Mr. Rockefeller. Keep your money. Your gift would do no good. It might give some pleasure for a few months, but in five years the dreary old levels of poverty and discontent would appear, and the land of "Getting Something for Nothing" would follow old Atlantis to the bottom of the sea, never again to appear except to adventurous memories.

Keep your wealth, Mr. Rockefeller, unless you can give it out as wisdom and old-age pensions, and to those unfortunate people who find unwelcome homes among cold winds.

Killing the Fat Goose.

(Cincinnati Enquirer.)
For the benefit of those highly peculiar folk, the politicians, who falsely pretend that the republic is endangered because of favor shown the South by the party in power, the brief story of Georgia, as published in a magazine advertisement, ought to be told. That state is fourth in the production of agricultural crops and second in the volume of cotton grown. In manufacturing it is seventeenth, not a bad rank in the array of 48 commonwealths. There are 2,776,212 people within her borders, and the value of all property is upward of a billion dollars. From

THE HARVEST MOON IN FATHERLAND

ber farms, mills and mines—where 23 minerals are produced—there is an annual income of \$542,000,000. Yet, with all of her great agricultural wealth, it is found necessary to buy 75 per cent of the \$200,000,000 worth of foodstuffs consumed outside the state. The magazine article is an appeal to producers to come into Georgia and exchange their goods for her money. Thus, while the state is extending its arms to the rest of the country and pleading for an interchange of products, the sorry clutch of little politicians, who want only patronage and the pelf that legislators, anxious to please, are seeking to secure from their insolent, even impudent language one would gather the impression that the South was a dangerous foreign country, against whom armaments should be kept up and aloofness of relations carefully preserved. While anger is incited by these conditions, yet sincere regret supervenes, and only sorrow can be expressed that such things should be.

Willis and Cox.

(Cleveland Plain Dealer)
Gov. Willis has failed to make good his promise to give the state greater economy in administration. Under his control of affairs, taxes have risen instead of dropped. The "deficit" he charged against Cox two years ago turned out to be a great surplus, just as Cox and his friends said it was. Willis has undone all he could undo of the Cox record, and given the state practically no new achievement. His has been a destructive administration. The two years of Gov. Cox were years of outstanding accomplishments that won the praise of experts and observers in many states. The Willis administration has, at best, marked time, at its worst it has tried to set back the hands of progress in Ohio. The Cox record and the Willis record comprise the issue in Ohio this fall, so far as the governorship is concerned. The one should be elected who gave the state the best administration on his former trial. Upon this basis, without regard to partisan politics, The Plain Dealer believes that James M. Cox is entitled to election to the governorship in November.

In Conversation.

(Ohio State Journal.)
When engaged in conversation, don't break in upon your companion before he has finished his remark. Maybe when he is through, you may find the need of saying further. But whether you do or not, it is impolite to do so, and politeness is about nine-tenths of the charm of conversation. Wait until he gets through. Such waiting testifies to one's character. There is a revelation of patience, of poise, of kindness that makes silence a greater argument than words. Think that what you are about to say is not very important and it unsaid will strengthen your cause the more. If you are only not so anxious to break in upon your friend, remember "the shallows murmur when the deeps are dumb." Try to follow the example of the deeps and let your opponent murmur on. The impatient talker in society is in the nature of a calamity. He should be tolerated, but not encouraged.

Spirit of the Press

When a Joke is Not a Joke.
Everybody condemns the angry man or woman who shoots at boys and girls caught in the act of stealing fruit from the trees, and these same people would highly commend the sending to jail of the same lawbreaker if he were caught stealing identicals the same fruit after it had been placed on sale in a store. Many people take to horticulture in the later period of life. It takes a year for a crop of apples, pears or grapes or any other popular fruit to ripen; it takes several years to start the trees. A bunch of little thieves can in one day destroy the efforts of a whole year made by

Yes Auk, it verily may be that money talks, but as for us, in our acquaintance with it, we have never found it garrulous.

Aunt Caline Says:
Ole Doc Carven sure showed the street a most interestin' sight the other day. Doc he was drivin' down the street an' he met up with Less Cash which he owed Doc a right big bill an' hadn't never made no move to make it less. Less he was amblin' along on one of these here little bits of mules which they call a bureau, an' Doc says, "Wait a minute, Less." An' Less he pulls up by jest a-puttin' down of his laigs, an' Doc says, "What's the matter of you a-goin' up to my house to-day an' cleanin' up the yard good?" An' Less he draws out, "They ain't nothin' the matter o' that," he says, "teppin' I'd see you in the lower regions afore I'd do it." An' Less he didn't say no lower regions—him bein' a heathen. "Oh, is that so?" says Doc, an' hopped outen his buggy right spry an' grabbed Less jest as he had drawn up his laigs preparatory to startin' up the bureau. Doc he pulled him offen that bureau an' I never see such a complete lickin' an' after a little Doc says, "Changed your mind about cleanin' up that lot, Less?" An' Less, some weak, "I think I hev, Doc," says he.

Did You Know
That the oesophagus or gullet is about nine inches long? It is a someone who has very few years left. To the grower of the trees it is an immeasurable disappointment. To the public it's a joke on the old man. The question is why in the world the joke doesn't extend to the grocer. Why not let lawless children help themselves from the baskets in his store? It's the same peaches.—Hartford Courant.

Hughes' Distortion of Facts.
Mr. Hughes in his Cleveland speech again attacked President Wilson for removing Ambassador Herrick in the midst of the European war, and declared that it would ever remain "a blot upon the present administration." Mr. Hughes knows, of course, that Mr. Herrick was not removed in the midst of war. Mr. Sharp was nominated to be ambassador to France on June 12, 1914, and confirmed June 13, 1914. The war did not begin until August 2, 1914. Instead of being recalled, Mr. Herrick was urged to remain in charge of the Embassy, and did remain for many weeks until his work was finished. Even a 100 per cent candidate ought not to distort the facts.—New York World.

A Message to Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 20 Pounds of Solid, Healthy Permanent Flesh.

Thin, nervous, undeveloped men, and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this. You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fats, materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh-building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and roll off firm, healthy flesh from over your bones, covering each bony angle and projecting point. Evans Drug Co., W. A. Erman, 33 N. 3rd St. and other good druggists have Sargol or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces. Sargol is the guarantee in each large package. It is inexpensive, easy to take and highly efficient.

Heals Running Sores and Conquers Piles.

"I feel it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year. I began to use Peterson's Ointment three weeks ago and now it is healed."—A. C. Gifford, 702 Reed St., Erie, Pa.
I'd rather get a letter like that says Peterson, than have John D. Rockefeller give me a thousand dollars. It does me a lot of good to be able to be of use to my fellow men. For years I have been selling Peterson's Ointment for 25 cents. The healing power in this ointment is unequalled. Economies in a few days. Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Granville

[Special to The Advocate]

Granville, O., Oct. 5.—Despite the beautiful weather, which tempts one to remain out of doors as long as possible, the first meeting of the year for the Woman's Music club, was honored with a full attendance of members and guests, and the spacious home of Mrs. C. D. Coons, was honored with a full attendance afternoon, Oct. 4. The president, Mrs. W. P. Ullman in a graceful little speech marked her appreciation of the beginning of her second term in office and Miss Blanche L. Ferre the new secretary read the report of the last meeting. Mrs. C. B. White who is to have exclusive charge of current events as well as of the question box responded in her usual happy manner. Mrs. J. D. Thompson leader of the program, presented salient points in the work and achievements of the various composers and spoke especially of the happy selection of the choruses for this first meeting. The program as presented has set a high standard for the coming year's work to which Mrs. J. S. Jones as head of the program committee has devoted much time and effort, ably assisted by Mrs. Ullman, Mrs. Johnson and Mrs. White. That she has succeeded was apparent in every number of this first program, and she was heartily congratulated by both members and visitors. The performers more than sustained the high standard of their previous offerings, and the new member, Miss Louise Wright charmed her audience by the finished style of her first contribution to the program—a group of piano pieces by Hadley. At the conclusion of the program the customary social hour was enjoyed, during which time tea was served by the hostess, Mrs. C. D. Coons, Mrs. J. W. Rohrer, Mrs. Karl Ashton and Mrs. J. L. Ogilvie. Guests of the club were: Mrs. Ratcliff and Miss Margaret Ratcliff of Oak Park, Ill.; Mrs. Sherman Granger, Zanesville; Mrs. Eric Johnston, Wyckoff, O.; Mrs. McEwan, Cleveland, Mrs. R. W. E. Marzo—Chorus, "Indian Summer." Mrs. J. W. Rohrer, Mrs. E. P. Johnston, Mrs. J. L. Ogilvie, Mrs. C. D. Coons, Mrs. Carter, Mrs. W. P. Ullman.

The fact that Denison conservatory has secured a great singer as head of the voice department was fully demonstrated last evening when not even standing room was left in Recital hall, for the first appearance in public recital of Mr. R. W. Soule, tenor. Standing audiences are want to grow restless spellbound by the sheer force of his artistry. Perhaps there have been "bigger" programs presented in this hall, but never one that so appealed to a representative Granville audience. Mr. Soule not only has the voice for great compositions, he has also the absolute control which gives the phrasing, the diction, the tone production, the tonal coloring for the wonderful effects he produces. His range also is unusual, and his mastery of technique gives a breadth and spontaneity to his interpretations which always please an audience. In his program last evening he ran the gamut of emotions, and was ably assisted by the finished work of Miss Leola Brown at the piano. If Mr. Soule can teach even half as well as he can sing, there will be great things accomplished in the conservatory this year.

Mr. and Mrs. Ed Wright and little daughter left early this morning for an automobile tour to Philadelphia via Wheeling and Pittsburgh. In the latter city they will visit Mrs. Wright's sister, Mrs. Lytle; in Philadelphia they will be guests of her cousins, Mr. and Mrs. Perry Pratt.

Mrs. Katharine Spencer of Dayton will be the guest of her daughter, Mrs. J. W. Rohrer in South Mulberry street for the coming fortnight.

Several parties of Granville people went to Columbus for the opening concert of the Quality series. Tuesday evening, among them being Mr. and Mrs. J. S. Jones and houseguest, Mrs. Sherman Granger of Zanesville, Mrs. C. J. Loveless, Miss Fannie Ferrar, Miss Blanche La Ferre, Miss Imogene Hamblen, and a large party of college students.

The following young ladies were guests of Sigma Chi fraternity at dinner Wednesday evening, Oct. 4: Miss Sefton, Misses Genevieve Cathcart, Vashiti Jones, Marjorie Hamilton, Lucille Bumgardner, Lucille Grant, Blanche Putnam, Louise Cobb, Pauline Ireland and Margaret Colwell.

The Betas entertained last evening in Curtis hall with a formal dinner party.

Phi Gamma Delta entertained Shepardson college guests at dinner last evening and the party attended the song recital in Recital hall at 7:45.

CINCINNATI PLAYS DENISON NEXT SATURDAY

Coch Livingston's Denison football gladiators, who suffered defeat last Saturday at the hands of Ottoburn, will have another tough proposition on their hands, next Saturday at Granville, when they meet Cincinnati.

The footballers from the Ohio river town, have received considerable praise from football critics, who have seen them in practice, and a successful season has been predicted. But at Granville next Saturday afternoon, the Denison crew will endeavor to retrieve the prestige lost a week ago, by turning back the Cincinnatians.

The game will be called promptly at 2:30 o'clock and a large number of Newark fans are planning to see the game.

NEWARK HIGH TO PLAY JOHNSTOWN FRIDAY AFTERNOON.

Newark high football team expects to cop another victory tomorrow afternoon at White athletic field when they meet the Johnstown high team. And according to the brand of football displayed in practice this week by the local, the expectations should not go amiss.

The locals opened the season last Saturday at Granville by scoring a 3-0 victory, when Fullback Orbooted the leather over Granville high's goal posts, from the 25-yard line.

The team is heavier this year than last and considerable faster, which gives them a look on the hard schedule ahead of them. Word from the camp of the Johnstown boys, is that their team is in excellent condition and confident of victory. A large crowd of Johnstown supporters are planning to accompany the team and a spirited game is looked-for.

J. A. McClure of O. S. U., will officiate. The game will be played after school hours. Admission 15 cents for school children and 25 cents to the general public.

Pataskala Folks Pay Four Cents Loaf for Bread

Pataskala has a bread war. Newark bread is selling for 4 and 8 cents, while Pataskala bread is selling three 5 cent loaves for 10 cents. Here is how it started:

A Pataskala merchant changed from a credit to a strictly cash business. As an inducement to purchase at his cash store, he lowered the price of Pataskala bread to 4 cents a loaf. Other merchants protested to their baker, who decided he could not afford to displease his trade, and ordered the cash grocery man to raise the bread price.

Instead of complying with the demand, Newark bread was purchased at the same cut rate prevailed. Then Pataskala made bread dropped in price to three 5 cent loaves for 10 cents.

The bread sale in Pataskala the past several days is estimated at 1100 loaves.

MOSS GETS PAROLE

Columbus, Oct. 5.—On condition that he make restitution to widows and orphans who suffered losses in the failure of a building and loan of which he was the head at Lancaster several years ago, George W. Moss was granted a parole from the penitentiary by the Ohio board of administration today. More than 100 other paroles were granted.

VAGRANT CONFESES TO TRAIN WRECKING THREE WERE KILLED.

Detroit, Oct. 5.—Frank McDonald, an alleged vagrant, who was arrested by local detectives last Sunday confessed to Detroit police today that he and his brother, Henry, wrecked a Michigan Central train at Bridgeport, Ont., on the night of May 3, 1911. Three persons were killed in the wreck.

McDonald waived extradition and was taken to Windsor, Ont.

COMFORT BAGS

FOR WOUNDED IN FRANCE BEING CHERISHED TO DISCOURAGED SOLDIERS IN HOSPITAL.

Granville Women Are Making Boxes of Bags—Get Letter From Paris Showing Good Done.

Granville, Oct. 5.—Local women organized into branch of the American Fund for French wounded have been urged to greater effort by a letter received from Isabelle Lathrop, president, who directs the work in France. This letter so clearly describes the misery of the wounded men that local women have been touched and there has been a hearty response to the appeal for aid. The Americans in France are doing a great work for the sick and wounded and their efforts are worthy of the support of all.

The Paris letter follows: Having just returned from a memorable trip to the front, I have never had a clearer idea of the wonderful work you are all doing; nor of the appreciation it evokes from the men who are made happy by your bounty.

France now looks to us for only those things which through invasion she cannot supply herself, therefore we beg of you to continue your magnificent work in shipping:

Socks, shirts, pajamas and woollen goods, bed linen, towels and all cotton goods, rubber goods of all kinds, (not water bags, air-cushions, etc.) Cotton in quantity. Thermometers (French scale). Gauze in quantity. Comfort bags.

The last articles have assumed an importance well worth emphasizing. It may be but a woman's point of view but I feel convinced it is part of the great moral structure that we Americans are privileged to help strengthen.

Picture to yourself a man after two years of strenuous fighting. If he is lucky enough to be merely wounded—tripped up as it were in this mad race he has been compelled to run—he lies unconscious, and then comes one or many operations followed by a tedious journey and eventually a bed in some lonely village hospital where he may lie for months or years. If lucky enough to be a convalescent he must begin the days of weary waiting that bring him either back to his place in the trench or to his dismissal as a "reformed"—which in plain English means crippled; or an encumbrance the rest of his life.

During these long days of waiting he sits there, or more often lies there looking into space. If he has hands, there is nothing with which to occupy them. If he has thoughts, there is nothing but the reminiscence of a broken family, a lost home. This is the man whom we have seen by hundreds and thousands, and we wish to bring into his life a ray of comfort that every American mother would pray to have meted out to her son.

The Comfort Bag has become almost a national emblem. Our object is to eliminate the "almost" and MAKE IT A NATIONAL MESSAGE! How can we do it, you say? Very easily! We now represent 30,000 American women who are giving their time to help not only the wounded man in France, but to offer him the sympathy and moral courage that will bring back the strength of his former self when the good days of peace come again. There are many times 50,000 men who have been brought back wounded from the trenches, and it is our ambition that each man should know who the woman is who has offered him a gift. These bags will do it! It is very simple—a remnant of bright chintz or a piece left from an evening gown—the brighter the better.

The filling of the bags is a joy. Let your imagination run riot! If you can afford only a comb, face cloth and soap—put it in and do not worry that it is little. If you wish to send the comforts of home, you only have to make the bag larger.

But in each case we beg for some sort of a puzzle, toy or memento; anything to keep the man's mind occupied and to turn his attention from the horrors of war to the kindly friend who has thought of him thousands of miles away in the United States.

With each bag should come some word. Many will never answer the message. They may be ignorant, too ill, or too overcome with all that

Good Old Home-Made Family Cough Remedy

Much Better than the Ready-Made Kind—Easily and Cheaply Prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any drugist 2 1/2 ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 64 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.50. Tastes pleasant and never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with ginseng and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., 25, Wayne, Ind.

they have gone through. But even if we do not hear, we will be content, for the good seed of our interest will be sown.

We have affiliated with our own American boys—the men who have come over here to make us proud that they are of our blood. You cannot imagine what a thrill it gives one to see a train of wounded come in. Waiting to receive them are French officials and stretcher bearers. Just before the train stops, these men divide; and up come the American boys marching two and two. They pass through the line and go direct to the train; for it is they who through their gentleness have earned the right to lift the mangled forms from the cars. They will merit all the praise they receive. A short time ago, I witnessed one of these scenes and my attention was arrested by four boys bending over a form with infinite care. I realized the case was a serious one and studied the faces of the boys. Anyone would have been proud to have called them brother and son, and I wished that I knew their names in order to tell their people how they were spending their time over here.

Finally they lifted the form—only a trunk with but one arm left—and I saw a kindly face, crowned with grey hair. They placed this remnant of humanity on dozens of our little comfort pillows, and I went back that night and cabled for 5,000 more. Before two days, we received a cable saying 3,000 pillows were leaving New York.

I should like to add of the strong impression we both received of where our work is most needed. Not at the front hospitals, which are perfectly appointed, but in the interior where we go from place to place with our own motor and where our visitors bring not only gifts that you make, but where they sit at the bedside of the man and speak to him of his home, encourage him about his recovery.

Our constant regret is that you at home cannot be in two places at once—here to share in our work of placing the things in the hands of the men and there to keep up this magnificent supply of hospital material that is earning for our society the goodwill of every Frenchman.

Miss Manby has just completed a trip through Brittany where she and Miss Daland sought out all the tiny hospitals. The result was a report on tuberculosis that made our hearts ache in consequence we are sending sputum bottles and "chaises longues" as fast as we can beg the money. In some localities this disease has increased 500 per cent.

To stand together in this big work is all we need to make its effect one of which our children may well be proud.

ISABELLE LATHROP, President.

P. T. LOAFERS TO WORK. J. M. Davis, operating vice-president of the Baltimore and Ohio Railroad System, returning from a recent inspection trip over the eastern lines of the company, said "If all the idle men who have no visible means of support were forced to go to work, there would be no shortage of labor in the United States."

"There is a very serious shortage of labor in the Pittsburgh district," declared Mr. Davis, "where the steel mills are rushed with orders and other manufacturing plants are working overtime to fill their contracts."

G. O. P. Speakers Dodge 8-Hour Law and Spend Time Criticizing Pres. Wilson's Administration.

The opening campaign gun of the Republicans in Licking county was fired last evening at a fairly well attended meeting held in the Auditorium of the High school building in West Main street. Attorney Charles W. Montgomery, member of the state central committee and chairman of the county executive committee, and who is the acknowledged Republican leader of the county, presided. He was followed by Judge E. Lee Porterfield of Delaware, O., candidate for congress from the 7th congressional district, Colonel Myron T. Herrick, candidate for United States senator, and Congressman Patrick H. Kelly of the Sixth Michigan district, whose home is at Lansing.

Previous to the meeting the Buckeye band gave a delightful open air concert from the balcony of the Warden Hotel, which assisted materially in drumming up a crowd. Shortly before 8 o'clock a procession of county candidates and their friends was formed and led by the band, marched to the school building, in front of which another concert was given and when the meeting was called to order the auditorium was a little more than half filled. Mr. Montgomery made a brief introductory speech which was well received. His slighting reference to Congressman W. A. Ashbrook's loyalty to the old soldiers in his pension legislation however, will not assist Judge Porterfield in capturing the votes of the old comrades in Licking county.

Judge Porterfield, after his introduction by the chairman, spoke for about ten minutes, confining himself to a tirade against congressmen for their use of the franking privilege and their part in the distribution of the "pork barrel." He did not promise, however, that he would not use the same privilege himself or that he would not endeavor to secure appropriations for public buildings in his district.

Colonel Herrick was next introduced and spoke very entertainingly for three-quarters of an hour of his life abroad while serving as ambassador at Paris. He told of many incidents and events which came under his observation and said that the United States must prepare to deal with foreign nations in a great commercial warfare at the close of the European war. He believed that the economic problems of the country could best be solved by the election of a Republican administration, but he did not advance any arguments to back the assertion. Colonel Herrick also paid a handsome tribute to the martyred President, William McKinley.

Congressman Kelly, the last speaker of the evening, proved far the best. Colonel Herrick while an entertaining talker is not much of an orator and the Michigan congressman handled the fireworks. He spoke of the great wave of prosperity which has been sweeping this country for the past couple of years under the Wilson administration but he charged that it was only temporary. He did not state what would cause the thousands upon thousands of factories over the country to suspend, factories which can hardly secure enough men at the highest wages ever paid in the history of the country. Nor did the speaker tell of the wonderful enthusiasm of the tens of thousands of railroad workers over the country for President Wilson on account of his eight-hour day for the railroads. Instead Congressman Kelly endeavored to ridicule the chief executive's foreign policies. The speaker waxed eloquent in a plea for patriotism, which brought the meeting to a close.

Occupying the stage with the speakers were a number of Republican leaders including Mayor Higbee and Captain A. H. Heisey and several candidates for office on the county ticket.

ARE BATHS NECESSARY?

This looks like a foolish question in this enlightened age, but there are nearly a million Americans who knew nothing of Internal Baths a few years ago and are now eager to testify that they are fully as essential to health as External Baths. By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes ALL the poisonous waste from the Lower Intestine, which physicians agree is the cause of 95 per cent of all human ailments.

It instantly relieves constipation, properly regulates the bowels and prevents all the dragging down which Biliousness and "Trouble" always create. E. W. Southall, M. D., of Genesee, N. Y., writes:

"I challenged the doctors in this town last week in regard to what I can do with your 'Cascade.' I can say for a truth that I know the reason for my success with many serious illnesses was due to having all the bowels washed out once and sometimes twice a day. I only wish I could make the people in general believe in the efficiency of a good bowel washing. I sincerely yours."

The Hudson Ave. Pharmacy, R. L. Williams Prop., 322 Hudson Ave., cor. Oak and Third, Newark, Ohio, has filed a tremendous demand for "J. B. L. Cascade" in the last few years and will show and explain it to you on request. A free and interesting booklet on Internal Batching, "Why Man of Today is Only 50 per cent Efficient," can also be obtained for the asking.

DIXIE COAL MAKES LESS ASH

CAREFUL BRAKING ADDS TO TIRE MILEAGE.

To get maximum tire mileage, be careful with your brake. But according to Mr. George Welsh, local distributor for the Mavigne Tire company, some motorists do not consider the thing that way, so probably a better way of saying it is "Be careful with your brake if you wish to keep down tire costs."

Every time you jam on your brake you directly affect your pocketbook. There are, of course, emergencies when it is absolutely necessary to slow down or come to a full stop in the shortest possible time. Tire costs are not to be considered in these emergencies, but such occasions can be greatly lessened. If not altogether eliminated by care in driving. You cannot lock the wheels on your car when traveling at any speed without serious damage to tires.
